April 16, 2019

Fixed Completion Date:

October 2020

Sub-grade preparation in process.

Construction Activities & Upcoming Work

The Stanley to Redfish Trail Project continues moving forward this past week with trail sub-grade preparation extending as far south as the Forest Service Office. The trail begins at the City Park and is headed southward toward the final destination of Redfish Lake Road, which totals about 4.7 miles. Caution is advised in the City Park and Forest Service Office vicinities as crews are scheduled to continue working in and around those areas this coming week of August 3rd. No work is scheduled for this Saturday, August 1st, however next Saturday, August 8th crews are scheduled to be actively working.

Work on the trail will be ongoing throughout the summer. Work schedules will be five days a week, and every other Saturday from 7:00 AM to 6:00 PM. This coming week of Monday 8/3, through Saturday 8/8, crews will continue to work full time, so please be very cautious when in the vicinity of the trail construction crews.

Thank You.
